

WOODEN

 SuperDoOR
committed to quality.committed to you

“Manufacture of wood and wood covered door claimed FSC Pure and FSC Mix.”

Along with the development of property in Indonesia, among others housing, hotels, apartments, flats, we are proud to introduce the Super Door brand, a company engaged in the manufacture of wood doors, solid, flush and panels with engineering technology based albasia wood and meranti wood.

In order to support and maintain quality, we employ experts in their respective fields so that the final results of the work can be perfectly resolved and with good design planning and production processes to meet customer desires, this makes our company trusted by various large companies during many years.

Customer satisfaction is our satisfaction as well, as well as being of its own value to us of course and also as a motivation for us to work better to face a tighter world of competition.

Warm regards,
Director

“Committed to Quality, Committed to you.”

Home application, garage*

Fire Rated with board

HIGH QUALITY INDUSTRIAL PAINT

High quality industrial paints
offer superior performance.
Professionally sprayed
paints offer a smooth,
consistent finish.

FIRE RATED DOOR

FRAME : Solid Engineering
CORE :

Fire Core – certified results

The unique structure of our fire rated board is the main reason for the superior fire resistance of Fire Core – without using additional fire retarding additives. Even at relatively light weight the burn-off rate is very low. This leads to doors with excellent fire rating and stability.

Artistic WOOD DOOR PROFILE

*The beauty of natural wood blends
with unique profesional craftmant
style will personalize your space.*
